CARRER OBJECTIVE

I am seeking an opportunity to further enhance my skills in a dynamic environment. With a focus on software development technologies, I can develop hands on experience in dynamic technologies. Eager to apply my hardworking and dedicated mindset to creating real-world projects and further develop my expertise.

EDUCATION

- B. Tech in Information Technology – Vel Tech High Tech   CGPA - 8.45
- HSC - SRM Nightingale Matriculation Higher Secondary School (2021).   89%
- SSLC - SRM Nightingale Matriculation Higher Secondary School (2019).   83%

TECHNICAL SKILLS

- **Full Stack Development**: React JS, React Native, Express, MongoDB, Java Servlets, MySQL.
- **Programming Languages**: Python, C, Java, JS.
- **UI/UX Design**: Figma, User Interface Design, wireframing, User Research.

INTERNSHIPS

Internpe - Web Development Internship   Apr 2024- May 2024

- As a Web Development Intern, I have developed web projects using HTML, CSS and JS.
- Learned the concepts of web frameworks by integrating real time mechanism tools in web projects.

Mathworks - Matlab Virtual Internship   May 2023- Sep 2023

- Onramp Course such as ML, DL, Computer Vision, Image processing.
- Gained Programming Experience in Matlab R203A Application by providing sample projects.

Pantech Solutions – AI and ML Internship   Jan 2023- Jan 2023

- As a AI / ML Trainee, I have learned the ML Algorithms and workflow of data to create a ML Model.
- Gained Knowledge about AI Projects like Face Recognition and Nail code Detection.

PROJECTS

Banking Management System

- **Tools used**: Java Servlets, Eclipse IDE, Apache Tomcat, MySQL.
- **Features**: Customer balance checking, withdrawal, deposit, transactions; admin account management; email notifications; password hashing.

Employee Time Tracker

- **Tools used**: Eclipse IDE, Apache Servlets, MySQL.
- **Admin**: Analyzes work with pie charts; manages employee accounts.
- **Employee**: Logs tasks; views tasks with pie charts and bar graphs for tracking.

CERTIFICATIONS AND COMPETITIONS

- Awarded in Internal Smart India Hackathon for Idea Presentation.
- DBMS, Python, Java Programming in NPTEL.
- UI/ UX in Great Learning.
- Machine Learning Masterclass in Pantech Solutions.
- Mathworks Onramp Course
